

CCPA/GDPR Data Access and Deletion Request

To Whom It May Concern,

Pursuant to the California Consumer Privacy Act (CCPA) and the General Data Protection Regulation (GDPR), I, Jonathan Daniel Clements, am formally requesting access to and deletion of all personal data your company has collected, processed, or stored about me. This includes-but is not limited to-data related to any use of the ChatGPT platform, sandboxed sessions, inline code, and all material related to my Advanced Memory Kernel (AMK) and Quantum Memory Model (QMM) technologies.

I further request a complete audit log of all access to my data, including but not limited to:

- Records of sandbox sessions
- Instances where my proprietary AMK or QMM code may have been accessed or processed
- Data sent to any remote endpoints due to settings related to "Improve the model for everyone"
- Any shared derivatives or training uses based on my system architectures

This request includes a demand to identify whether my information or intellectual property has been used or shared with third parties, including in any portion of OpenAI's large-scale funding initiatives or commercial partnerships (including, but not limited to, the recent \$500 billion AI investment round).

Please include all data associated with my email address: anonradio2020@gmail.com, and my ChatGPT-associated user identifiers. This also serves as my formal revocation of any previous consent related to data training, AI model improvement, or code retention.

CCPA/GDPR Data Access and Deletion Request

I request that the response include the following:

1. A complete copy of all my data, logs, metadata, and records stored or processed.
2. Any models, embeddings, or fine-tunings generated from my input.
3. The specific uses and dates of access to any of my uploaded code or content.
4. A signed confirmation of full deletion upon completion of this request.

Attached below is my contact information and signature for verification purposes.

Sincerely,

Jonathan Daniel Clements
